

TECHNOLOGICAL SOLUTIONS  
& SUCCESS STORIES

**Cybersecurity Strategies, SOC2  
Compliance, and Infrastructure  
Modernization.**

DRIVING DIGITAL RESILIENCE  
FOR CLOUDKEYNET.

# Transforming Challenges into Tangible Results

At Cloudkeynet, we don't just manage technology; we build trust. Here we will discuss how we use industry leading tools like Aikido Security and AWS to solve critical security and scalability issues for our customers.

## Compliance and Security (The case of SOC2)

A development ecosystem requires total visibility to compete in global markets.

### What we did:

- Security consolidation with Aikido Dev.
- Automatic evidence mapping for compliance audits.
- Reduced alert fatigue for technical teams.

We managed to reduce false positive noise by

**30%**

allowing the team to freely focus on innovation.

## SOCIAL IMPACT (ADOPTA NO COMPRES FOUNDATION)

### WEB MODERNIZATION WITH A FOCUS ON SECURITY

A donation platform that required complete data integrity and constant availability.

### THE SOLUTION

ROBUST ARCHITECTURE  
IN LARAVEL + AWS

INTEGRATION OF AIKIDO ZEN TO  
SECURE SOURCE CODE AND  
PREVENT INFORMATION LEAKS.

100% SECURE PAYMENT  
GATEWAY FOR DOMESTIC AND  
INTERNATIONAL DONATIONS.

### RESULT

# 100%

TOTAL FINANCIAL TRACEABILITY AND CLOUD COSTS  
ARE REDUCED THROUGH OPTIMIZATION.

## METHODOLOGY / OUR TOOLS (THE PROCESS)

### Our Trust Stack

#### **Key points:**

- Initial Audit: In-depth diagnosis of vulnerabilities.
- Implementation with Aikido: Continuous scanning of dependencies and code (SAST/DAST).
- Cloud Optimization (AWS): Scalability that grows with the business.
- Preventive Maintenance: 24/7 monitoring of critical infrastructure.

## IS YOUR COMPANY READY FOR THE NEXT LEVEL?

Don't wait for a security incident to happen before taking action. At Cloudkeynet, we have the experience and tools to protect your future.
